### **DETAILED ACTION**

Claims 25, 27-48 are pending in this application. Amended claim 25, 44 are noted.

The amendment dated 10/14/08 has been entered and carefully considered. The examiner appreciates the amendments to the specification and claims. In view of said amendments, the objection to the title, the previous 112 rejection, and the art rejection has been withdrawn. Also, in view of the arguments, the previous 112 rejection has been withdrawn.

Claims 46-48 are withdrawn from consideration as being directed to a nonelected invention.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 25, 27-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 25, from which claims 27-45 depend, the limitation of the water vapor controlled “from 0.05% to 1%” is deemed new matter. It is noted that nowhere in the original specification is there any mention of “0.05%” water vapor or its criticality.

***Response to Arguments***

Applicant's arguments filed 10/14/08 have been fully considered but they are not persuasive.

Applicant argues that claims 46-48 should be rejoined because they recite all the features of the allowable claims (p.8).

The examiner disagrees. It is noted that the method claims have not been allowed. Regardless, rejoinder of product claims to method claims is not incumbent on reciting all features. Thus, claims 46-48 remain withdrawn from consideration.

Applicant's arguments have been considered but are not deemed persuasive.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
